FROM SUN AND ROCK TO ELECTRIC STOVE

'Current Cooking' Latest Stride In Tortuous Trail Since Paleontological Era.

The sun and a flat rock were the only requisites for baking in the days of the cave man. In the relics of ancient Egypt, remains of cooking utensils are mute evidence of the cookery mentioned in the archives of that bygone age.

The banquet hall of an old English baron with its roasting spit and wood fire, shows another side of the art of cooking.

The open fireplace with its Dutch oven was a familiar sight in our own country during the colonial days. Another stride forward came with the introduction of coal as fuel.

The gas oven is one of the more modern inventions that reduced soot and smoke caused by coal combustion.

The last and perhaps the most revolutionary improvement in the art of baking, according to some of the country's leading authorities, on domestic science, is the electric oven with controlled heat.

During the past century there has been great improvement in the methods of applying heat to food. Each improvement has resulted in less of the heat energy being wasted and in more being absorbed by the food. Each step, from the open fireplace finally to the electric oven has been marked by greater heat efficiency and better control of the heat.

Saturday baking was always a hot and tiresome task when done in old style ovens, especially in the summer, because old ovens all radiated heat into the surrounding atmosphere instead of concentrating it where it was most needed.

In modern ovens the walls are insulated so that little of the heat escapes to heat up the kitchen, so much baking may be done without a corresponding increase in the temperature of the kitchen atmosphere.

BRIGHT ELECTRIC LIGHT AID IN KITCHEN WORK

In the home kitchen right at the sink is where the housewife or maid spends a great deal of time, preparing vegetables, or washing up dishes after the meal if there is no electric dishwasher and this sink should be well lighted, for all such kitchen operations.

A 75-watt daylight lamp over the sink shining directly down upon the sink will speed up production as well as good lighting in a factory. Such a lamp has glass of bluish tint which reproduces naturally a daylight effect, hence its name.

As the light is not on continuously as a reading lamp would be in other rooms, the amount of current used is negligible.

DAYLIGHT LAMP OVER SINK IS DESIRABLE

In the kitchen of the home, right at the sink is where the housewife or maid spends a great deal of time, preparing vegetables or washing dishes after the meal if there is no electric dishwasher. This sink should be well lighted for all such kitchen operations.

A seventy-five-watt daylight lamp over the sink shining directly down upon the sink will be found to be a great help. Such a lamp has glass of bluish tint which reproduces naturally a daylight effect, hence its name.

As the light is not on continuously as a reading lamp would be in other rooms, the amount of current used is not great.

SEERESS' INFORMATION ENDS SEARCH FOR BABY

CHAMPAIGN, Ill., Aug. 29.—Raymond Geake, youth, was drowned six weeks ago. Search for the body proved futile. Finally the mother of the boy asked the Champaign board of supervisors to engage a clairvoyant in the hunt. They did. The clairvoyant said the body had drifted under two bridges and that the head was fast in a barrel. The body was found within two feet of where the medium designated and the head was fast in a tub. The Champaign board of supervisors has voted \$50 to the clairvoyant for her services.

CANADIAN POULTRY FARM ELECTRICALLY EQUIPPED

Everyone who has traveled to British Columbia by auto has probably noticed the attractive place of Herman Gort at Lynden. An inspection of this wonderful place leaves nothing to be desired, as its large sign announces: Lynden Poultry Yard, Electrically Equipped. The incubator house is divided into two rooms, thirty by twenty-two feet each. The brooder house is forty by twenty-two feet.

The prettiest sight on the place is 1,100 three-month old pullets. There will be 8,000 layers for next season. Ready orders for 7,000 chicks for 1921 delivery have been entered, while last spring there was a demand for 40,000 hatching eggs from these poultry yards.

HOME SOUGHT FOR OLD BIBLE, PUBLISHED IN 1702

ATLANTA, Ga., Aug. 29.—Wanted—A home for a homeless Bible, two hundred and eighteen years old.

The volume concerned is a commentary published in London in 1702. The fine leather binding, worn and faded, contains a thousand pages of quaint old print on yellowed linen paper.

Mrs. Fannie Fincher, who inherited the book from her great grandfather, has placed it with J. L. Coogler, of this city, requesting that he find a suitable museum or private library that will value this addition to its shelves.

BOBBY COMES TO GRIEF IN FLIGHT FROM WIFE

AKRON, Ohio, Aug. 29.—When Bobby Thomas' left his home the other evening he promised his wife he would be home early.

But Bobby didn't keep his word. But his better half started on the hunt for him.

He was trying to escape her, he said, when he fell through a plate glass window in a grocery store. Charged with malicious destruction of property, he was fined \$50 and costs in Police Court, and was sternly reprimanded by his wife besides.

8 HURT AS AUTOS COLLIDE AT CLUB

Little Hope Held for Robert Miller's Recovery at Emergency Hospital.

Robert Miller, of 1661 Park road northwest, who was injured in a collision between two automobiles last night at the main entrance of the Columbia Country Club, Chevy Chase, Md., in which eight persons were injured, is in the Emergency Hospital today in a serious condition. Doctors say his chance for recovery is slight.

Neilson Miller, his cousin, of Scotland, Pa., one of the three who were badly hurt, is improving. He is also at the Emergency Hospital. The third victim, Mrs. John M. Williams, 5521 Connecticut avenue northwest, whose husband was driving one of the cars, is at the home of Dr. Thomas K. Conrad, 5508 Connecticut avenue, where she was taken after the accident, suffering from severe shock, cuts, and possibly internal injuries.

STRUCK MILLER'S CAR.

The collision occurred between 8 and 9 o'clock. On of the touring cars, carrying three men and three women, crashed into the Williams machine at the entrance to the club, according to Maryland authorities. Mr. Williams was making the turn at the gateway, when the another machine, driven by Robert Miller, bound at a high speed for Chevy Chase Lake, struck his car, witnesses say.

Both machines were overturned and the occupants pinned beneath them. Robert and Neilson Miller were badly burned when the Miller car caught fire. Neilson freed himself from the wreckage, and saved Robert from burning to death. The flames were extinguished by F. M. Pike, of the War Department, who heard the crash and went to the scene in his car.

TIMES MAN GIVES AID.

T. R. Longcope, advertising manager of The Washington Times, who lives at the Columbia Country Club, rushed the occupants of the Miller car to the Emergency Hospital. Mrs. Williams was taken to the home of Dr. Conrad.

Others in the Miller car who received minor injuries were: Miss Elizabeth Miller, Scotland, Pa., sister of Neilson Miller; Miss Marion Miller, sister of Robert Miller, 1661 Park road northwest; Mrs. Sally Post, Clarkburg, W. Va., and George Fildt, Victoria apartments.

HELD ON CHECK CHARGE.

Mel F. Kline, music concert promoter, arrested in Washington Friday night by Detective Darnall, last night was turned over to Baltimore detectives, who want him to explain an alleged worthless check bearing his name.

COPS HUSTLING TO GET \$20,000 FOR BALL GAME

Precincts Report \$17,000 Worth of Tickets Already Sold for Next Saturday's Contest.

With \$20,000 as their goal, members of the police department are striving to reach this amount before the game sounds for their annual baseball game with the Home Defense League next Saturday afternoon at American League Park. The various precincts have been increasing their daily ticket sales, until the \$17,000 mark has been reached.

The two teams have been practicing strenuously for several weeks, and are said to be in excellent shape for the fray next Saturday. Captain Jack Ryan, of the Home Defense team, is anxious to add another victory to his string, while Lieut. "Mike" Ready, of the Eleventh precinct, who will captain the police team, is confident that the "bluecoats" are going to be winners.

The line-up of the two teams was announced last night and shows both teams to be stronger this year than ever before. The umpires will be James T. Hughes, better known as "Shorty" Hughes, and "Billy" G. Betts. Nick Altork has been selected as "generalissimo" and will hold down the side lines throughout the contest. The Home Defense team won last year 7 to 5, but this year the "coppers" expect to turn the tables.

D. C. YANKS AMONG 66 TO BE BURIED TUESDAY

Arrival of the bodies of five officers and sixty-one enlisted men who died overseas at New York, was announced by the War Department today. The bodies of Lieut. James F. Quisenberry and Bugler Warner M. Rogers, of this city are among the sixty-six. They will be buried with full military honors at Arlington cemetery Tuesday afternoon at 2:30 o'clock. The late Lieutenant Quisenberry's father, now resides at Hyattsville. Bugler Rogers' mother resides at 1071 Wisconsin avenue northwest.

RAID LIQUOR PLANT AT MONKEY HOLLOW

Farmhouse Had Five Still and 500 Gallons of Corn Mash. Three Arrests Made.

Four colored persons were arrested late yesterday charged with violation of the prohibition law, following a raid and capture of five stills at an empty house on the Callahan farm, near Monkey Hollow, a negro settlement between Rock Creek Park and Kensington, by internal revenue agents headed by Harold R. Stephenson and several officers of the Tenth police precinct headed by Sgt. J. W. McCormick and two park policemen. The two policemen stopped a large touring car in Rock Creek Park, containing two colored men and one woman and twenty-seven gallons of corn whiskey. They were taken to the Tenth precinct, where they told of having obtained the liquor in Monkey Hollow. The raid followed, which resulted in the arrest of Isaac Davis, who lives in a house not far from the place where five stills were captured. He was taken to Baltimore by the revenue agents. The other three arrested, Frank Davis, 11 Denison street northwest, John E. Green, 2803 M street northwest, and Blanche Brown, 927 Twenty-seventh street, are being held at the Tenth precinct.

Five hundred gallons of corn mash, taken in the raid, was destroyed. The "white-lightning" was put up in Crisco cans, labeled pure corn product.

SAID HE COULD WHIP 100; LONE COP TAMED HIM

Because he said he could whip 100 negroes and repeated his boast in increasingly loud tones and with variations, to the edification of passersby on Fifteenth street northwest, Hugh J. McCrooy, 1918 Eighteenth street northwest, last night was arrested and calmed down by Detective Hughes.

JOHN TO HEAR BARRETT.

Girls Barrett, retiring director-general of the Pan-American Union, will address the young women of the Y-W building at the Government hotel, Union Station Plaza, at 8:30 o'clock tomorrow night on "New World-wide Opportunities for Young Women." Mrs. David H. Linchloe will give a musical program, to be followed by dancing.

20 STRIKES IN PROGRESS.

Twenty strikes and forty-three controversies which have not reached the strike stage are before the Department of Labor for adjustment. It was announced today. Six new cases were brought to the Department's attention last week.
